The Single Plan for Student Achievement

School:	Marguerite Montgomery Elementary School
CDS Code:	57726786118905
District:	Davis Joint Unified School District
Principal:	Jen McNeil
Revision Date:	May 23, 2018

The Single Plan for Student Achievement (SPSA) is a plan of actions to raise the academic performance of all students. California Education Code sections 41507, 41572, and 64001 and the federal Elementary and Secondary Education Act (ESEA) require each school to consolidate all school plans for programs funded through the ConApp and ESEA Program Improvement into the SPSA.

For additional information on school programs and how you may become involved locally, please contact the following person:

Contact Person:	Jen McNeil
Position:	Principal
Phone Number:	(530) 759-2100
Address:	1441 Danbury Street Davis, CA 95616
E-mail Address:	jmcneil@djusd.net

The District Governing Board approved this revision of the SPSA on June 21, 2018.

School Vision and Mission

Marguerite Montgomery Elementary School's Vision and Mission Statements

In the Marguerite Montgomery Elementary School community we focus on learning for every student. Teachers, parents and administrators work collaboratively to ensure success and growth for each child. We spend significant time identifying what all students will learn and ensuring that this learning takes place. We partner with our diverse communities to provide active learning experiences through meaningful curriculum. PTA enables us to provide our students with enrichment activities including art, music, and drama. We have clubs and activities that engage students with the world around them including Make a Difference Club, Bridge tutoring program, Robotics and more. Additionally, all sixth graders attend a week long outdoor science camp. MME enjoys strong community support in a culture that is warm and welcoming. MME takes pride in its diversity of students and experiences. MME is a neighborhood school with a traditional program grades 2-6th and a Two Way Bilingual Immersion program grades K-6th. Our campus is well-maintained with ample open space, green areas, a play structure, and a network of gardens. Our mission statement reads: "At Marguerite Montgomery Elementary we cultivate a vibrant community dedicated to nurturing each child in a respectful, caring environment and providing rigorous, language-rich academic instruction in English and Spanish."

Comprehensive Needs Assessment Components

Data Analysis

Please refer to the School and Student Performance Data section where an analysis is provided.

<u>Surveys</u>

This section provides a description of surveys (i.e., Student, Parent, Teacher) used during the school-year, and a summary of results from the survey(s).

The Youth Truth Survey was administered in October 2017 to students 3-6th grade. Overall, MME students rate their level of engagement and classroom culture as highly as students do at other participating schools. On a relative basis, MME students agree more strongly that their teachers let them explain their ideas, that they like coming to class, and that students behave well in their classes and treat teachers with respect. MME students rated relevance on a lower level than students did at other participating schools, which means they agree less strongly that they learn in class helps them outside of school.

Classroom Observations

This section provides a description of types and frequency of classroom observations conducted during the school-year and a summary of findings.

Administration observes classes informally on a regular basis. Once per trimester these observations include district office level administrators. Teachers also participate in peer observations both on-site and at other schools in order to improve instructional practice. Formal observations are in accordance with union bargaining agreements. Lessons are standard's based and engagement is strong. Our classes integrate high leverage instructional practices, district/state curriculum, and take district as well as state assessments.

Analysis of Current Instructional Program

The following statements are derived from the Elementary and Secondary Education Act (ESEA) of 1965 and Essential Program Components (EPCs). In conjunction with the needs assessments, these categories may be used to discuss and develop critical findings that characterize current instructional practice for numerically significant subgroups as well as individual students who are:

- Not meeting performance goals
- Meeting performance goals
- Exceeding performance goals

Discussion of each of these statements should result in succinct and focused findings based on verifiable facts. Avoid vague or general descriptions. Each successive school plan should examine the status of these findings and note progress made. Special consideration should be given to any practices, policies, or procedures found to be noncompliant through ongoing monitoring of categorical programs.

Standards, Assessment, and Accountability

1. Use of state and local assessments to modify instruction and improve student achievement (ESEA)

MME reviews state assessment results, inclusive of the dashboards and individual student data, as a site and in grade level teams. As a result, teaching staff identifies areas for additional instruction, reflects on instruction from prior year, and articulates needs for professional growth. Additionally, MME staff have used common assessments agreed upon in grade level teams district wide to assess the impact of their instruction and the needs of students. This process continues to evolve as assessment cycles and assessment tools are refined.

2. Use of data to monitor student progress on curriculum-embedded assessments and modify instruction (EPC)

Staff at MME uses curricularly embedded assessments in a formative manner so that instruction is responsive and to give teachers the information needed during academic conferencing. Some EnVision assessments are used by the classroom teacher, grade level team at the site for use in planning instruction, intervention, or flexible ability grouping. In Language Arts our school uses foundational skills assessments, oral running records and our adopted ELA/ELD curriculum Benchmark Advance/Adelante unit assessments. This upcoming school year we will also use report card standards in Reading, Writing and Speaking/Listening standards with articulated rubrics to progress monitor. (See Language Arts Goal #1)

Staffing and Professional Development

- 3. Status of meeting requirements for highly qualified staff (ESEA)
- 4. Sufficiency of credentialed teachers and teacher professional development (e.g., access to instructional materials training on SBE-adopted instructional materials) (EPC)

Teachers at MME are credentialed and teaching in their appropriate areas. Additionally, the district and site have been able to provide professional growth support in identified areas of focus. This year, many opportunities have existed for professional learning around mindset, implementation of Number Talks, and in the Language Arts/English Language Development framework. Our Instructional Math Coaches and Differentiation Specialists have also worked with individual teachers, small professional learning cohorts, and all staff professional growth meetings. Our Kinder through 3rd grade teachers are all participating in the Sobrato Early Academic Language professional development to further develop high leverage instructional strategies.

5. Alignment of staff development to content standards, assessed student performance, and professional needs (ESEA)

In math, much energy has been invested in aligning standards, assessments, and the planned adult learning. In Language Arts professional development was provided for our newly adopted Benchmark Advance/Adelante curriculum. All staff has worked to better understand differentiation and the intentional design of California Common Core through additional professional development via UC Davis Social Studies project, SEAL (see above) and UC Davis math development opportunities.

6. Ongoing instructional assistance and support for teachers (e.g., use of content experts and instructional coaches) (EPC)

At MME we have benefited from Differentiation Specialists, Reading Specialists with expertise in foundational reading skills, as well as an Instructional Math Coach. We also have a SEAL Coach who helps with implementation and provides direct teacher support.

7. Teacher collaboration by grade level (kindergarten through grade eight [K–8]) and department (grades nine through twelve) (EPC)

At MME collaborative time is both supported and valued, but also explicitly designed within contract time. We have weekly grade level collaboration for two hours. Monthly, there is collaborative time as a whole staff, time as a grade level at our site, time as a grade level across the district. Additionally, this year we have benefitted from many teachers submitting and receiving grants to honor their collaborative time.

Teaching and Learning

8. Alignment of curriculum, instruction, and materials to content and performance standards (ESEA)

As new frameworks are adopted, MME has participated in training to better understand and implement frameworks and standards. In math and Language Arts, we have adopted and fully implemented State adopted materials to support this and have developed a scope and sequence for further support and alignment. We expect to parallel this process and continue to learn, implement, and align standards and frameworks for Social Science, Next Generation Science, and Health in the coming years.

9. Adherence to recommended instructional minutes for reading/language arts and mathematics (K-8) (EPC)

At MME we have an average dedicated time to math of 80 minutes and in ELA/ELD of 120 minutes. It is our intention to have less variability on site and district wide next year.

10. Lesson pacing schedule (K–8) and master schedule flexibility for sufficient numbers of intervention courses (EPC)

MME has a rich and intensive intervention program. We have 4 times per week 40 minute intervention blocks by grade level. Unlike other DJUSD elementary schools, we also have an extended day for grades 2 and 3 by 40 minutes. Our Bridge program serves Kinder through 6 grade identified students with academic intervention and homework completion after school. We also have the support of 1.8 FTE reading specialists, .5 FTE Instructional Math Coach and 1.5 FTE ELD specialists. We also provide paraeducators for reading and math, two per classroom, 40 minutes per day.

11. Availability of standards-based instructional materials appropriate to all student groups (ESEA)

At MME K-6 state board of education approved curriculum was purchased for mathematics and additional supplements were purchased for richer tasks and differentiation this year. ELA/ELD materials purchased and have been in use since Fall 2017. These materials include those needed for intervention, additional depth or complexity.

12. Use of SBE-adopted and standards-aligned instructional materials, including intervention materials, and for high school students, access to standards-aligned core courses (EPC)

SBE adopted materials, EnVision are being used in our full inclusion model of instruction and support intervention in math. The same is true for Benchmark Advance/Adelante. Teachers and specialists have also created and purchased materials for appropriate intervention and student support; these supports and interventions are designed to further teacher ability to facilitate instruction of state standards and student achievement.

Opportunity and Equal Educational Access

13. Services provided by the regular program that enable underperforming students to meet standards (ESEA)

MME uses a block intervention schedule to provide support to under-performing students 4 times per week for 40 minutes.

14. Research-based educational practices to raise student achievement

At MME we have focused practice on strategies supported by research that include: Sobrato Early Academic Language (SEAL), Kagan strategies, restorative practices and social emotional learning, Number Talks, formative assessment, Professional Learning Communities, and Daily Five.

Parental Involvement

15. Resources available from family, school, district, and community to assist under-achieving students (ESEA)

MME has a strong and thriving Parent Teacher Association. PTA provides substantial per teacher funding for field trips, fine arts and instructional supplies. These monies directly assist students. MME also has a community partnership with Empower Yolo in order to operate a site based Yolo Family Resource Center, which provides classes, services and support for parents. MME partners with the Yolo Food Bank in order to fill backpacks for low income students on the weekends.

16. Involvement of parents, community representatives, classroom teachers, other school personnel, and students in secondary schools, in the planning, implementation, and evaluation of ConApp programs (5 California Code of Regulations 3932)

The School Site Council, ELAC, Site Liaisons, and staff all contributed to the development of this plan through regular staff meetings, additional conferencing days and after school evening meetings.

Funding

17. Services provided by categorical funds that enable underperforming students to meet standards (ESEA)

Title 1 funds here, SEAL by district level LCFF supplemental funds

18. Fiscal support (EPC)

- 1. Overall the percentage of students in grades 3-6th who did not meet standards in ELA has increased. However in reading, writing and listening subcategories, the percentage of students who were above standards stayed the same or increased.
- 2. An achievement gap exists between all students and students in the following sub groups: Socioeconomically Disadvantaged (SED), EL, Latino/Hispanic, and Students with Disabilities. However, students in the Latino/Hispanic sub category improved ELA scores by approximately 4%.
- 3. In 6th grade, the percentage of students who exceeded and met standards grew by nearly 13%.

CELDT (Annual Assessment) Results

- 1. The majority of English Learners at MME score in the Intermediate and Early Advanced categories when the CELDT was administered in the fall, as the above data shows. This year in April of 2018 we were able to reclassify 31 students, which means that most likely intervention and services allowed students to improve toward Advanced to be reclassified.
- 2. Students not moving toward proficiency on the CELDT were most often stalled in their reading comprehension scores.
- 3. 35% of th grade EL students were in the Intermediate category in 15-16. When this group moved to 4th grade in 16-17, 24% remained Intermediate, meaning that a significant number moved to intermediate.

Total	10	8		21	20		31	31		16	15		23	26	

CELDT (All Assessment) Results

- 1. The percentage of EL students scoring in the Advanced category, decreased by 2%.
- 2. The percentage of all students testing in the Beginning level grew by 3%.
- 3. The percentage of students scoring in the Intermediate range overall stayed the same. However, in the 5th grade the number decreased from 35% to 23% suggesting that students progressed to Early Advanced. In 2015-2016 this cohort of 6th grade students decreased to 34% in the Early Advanced category.

Planned Improvements in Student Performance

School Goal #1

The School Site Council has analyzed the academic performance of all student groups and has considered the effectiveness of key elements of the instructional program for students failing to meet student performance targets. As a result, it has adopted the following school goals, related actions, and expenditures to raise the academic performance of students not yet meeting state standards:

SUBJECT: 21st Century Teaching and Learning: Language Arts

LEA GOAL:

All students will engage in a high quality 21st Century exemplary education supported by a rigorous curriculum, conducive learning environments and collaborative staff. (Conditions of Learning)

SCHOOL GOAL #1:

Every child will make a year or more growth as measured by baseline and trimester assessments in reading, writing and speaking/listening.

Data Used to Form this Goal:

As a school staff we reviewed all state-wide (SBAC) and school-wide data from the last two years. We also reviewed local reading assessment results every trimester.

Findings from the Analysis of this Data:

All students grades 3-6 for 2015-2016 were rated as Low, Yellow with in the SBAC dashboard for English Language Arts with a score of -5.6 points, which was an increase of 3.6 points from the previous year. All students grades 3-6 for 2016-2017 were rated as Low, Orange because the scores reflect a decrease in overall achievement. English Language Learners, comparatively, showed an increase by 3.6% in achievement for ELA between the two years.

Local reading measures evaluated during the year showed growth equivalent to a year or more for most students. For example, in 1st grade Immersion classes baseline assessments showed that approximately 58% of the students were below grade level-- meaning they were not secure in letter sounds or able to read simple syllables. At the end of trimester 2 based on assessment, approximately 16% were below grade level. At year end 12.5% or three students--also with identified learning disabilities--are below grade level.

How the School will Evaluate the Progress of this Goal:

MME staff will use school-wide baseline and trimester assessments at minimum 4 times per year in Language Arts to monitor student progress. These assessments will be aligned with DJUSD assessment guidelines and use grade level report card standards in Reading, Writing, and Speaking/Listening. At least one standard per area (Reading, Writing, and Speaking/Listening) will be monitored. Each grade level will use the same standard, assessed with the same tools, and scored with the same rubrics so that marks assigned and data generated is valid for progress monitoring school-wide. We will review the data at Academic Conferences and at weekly collaboration as needed. This data generated will be entered into report cards in Illuminate to inform marking period reports.

Each grade level report card will have 3 standards selected:

1. Reading will monitor foundational skills and comprehension with the following assessments.

2. Writing will monitor one of the three genres based on grade level agreement (either informational, narrative or opinion/argument).

3. Speaking and Listening will monitor discussion/collaborative conversations (K-3) or oral presentation (4-6th).

School Goal #2

The School Site Council has analyzed the academic performance of all student groups and has considered the effectiveness of key elements of the instructional program for students failing to meet student performance targets. As a result, it has adopted the following school goals, related actions, and expenditures to raise the academic performance of students not yet meeting state standards:

SUBJECT: 21st Century Teaching and Learning:: English Language Development

LEA GOAL:

All students will engage in a high quality 21st Century exemplary education supported by a rigorous curriculum, conducive learning environments and collaborative staff. (Conditions of Learning)

SCHOOL GOAL #2:

Seventy percent of English Learners will test at the expanding or bridging level on the new ELPAC assessment (spring 2018). Going forward, in 2018-19 on the ELPAC sixty-five percent of EL students will either move one level, maintain their current level for only a second year, and/or meet reclassification criteria.

Data Used to Form this Goal:

CELDT level proficiency was used to form this goal. In 2016-17, 62% of ELs were at the intermediate, early advanced, or advanced level on the CELDT (roughly equivalent to the expanding and bridging levels of the ELPAC). Fifty-eight percent of EL students met the previous goal of moving one CELDT level or more per year, being reclassified, and/or staying at the intermediate level for only a second year. Given that the ELPAC only measures three levels (emerging, expanding, bridging) compared to the CELDT's five, students will not be expected to necessarily improve one level per year on the ELPAC as they were on the CELDT.

Findings from the Analysis of this Data:

The data review showed that students who make consistent progress on the CELDT (and, now, ELPAC) continue grade level growth, while those who stall in progress on these standardized ELD tests struggle in grade level academics. When reviewing CELDT data we see that students not moving toward proficiency on the CELDT were most often stalled in their reading comprehension scores, which we expect to be similar for the ELPAC based on field testing, though writing might be a greater area of need on the ELPAC.

How the School will Evaluate the Progress of this Goal:

Annual ELPAC assessment as well as formative assessments such as reading data and monitoring of progress in English Language Development groups using authentic assessments such as writing samples and classwork. Triannual academic conferences and intervention meeting discussions will be used to determine if EL students are making adequate progress in grade level academics along with their progress on the ELPAC.

Using state criteria, identify long- term English learners (6th grade) and students at risk of becoming LTELs (3rd-5th grade) and provide tier 2 and tier 3 intervention from EL specialists in addition to designated ELD.	6/12/2019	Principal, ELD specialist, classroom teachers, ELD Para-educator				
Provide ongoing professional development, with an emphasis on the CC ELD standards (through SEAL for TK-3rd teachers, and YCOE Integrated and Designated ELD Standards training for 4th-6th teachers), through professional collaborative time with classroom teachers and other specialists.	6/12/19	Principal, ELD specialist, classroom teachers				

Planned Improvements in Student Performance

School Goal #3

The School Site Council has analyzed the academic performance of all student groups and has considered the effectiveness of key elements of the instructional program for students failing to meet student performance targets. As a result, it has adopted the following school goals, related actions, and expenditures to raise the academic performance of students not yet meeting state standards:

SUBJECT: 21st Century Teaching and Learning: Mathematics

LEA GOAL:

All students will engage in a high quality 21st Century exemplary education supported by a rigorous curriculum, conducive learning environments and collaborative staff. (Conditions of Learning)

SCHOOL GOAL #3:

Students will demonstrate proficiency ("near standard" or "above standard") on grade level mathematical standards as measured by local and statewide assessments.

Data Used to Form this Goal:

SBAC Dashboard data from the last two years was used to form this goal. See CAASPP results all students page 10-11. We also reviewed Dreambox utilization data.

Findings from the Analysis of this Data:

In the areas of problem solving and communicating reasoning, students showed a slight decline in the percentage who scored above standards. For this reason, we would like to focus our mathematics actions steps around Number Talks and Rich Tasks, two research based instructional strategies that have an impact on these areas.

In addition, our team would like to focus our progress monitoring more on local formative and summative assessments so that the data is more timely.

Dreambox usage needs to increase to a minimum 60-90 minutes per week per child and can be encouraged for home use.

How the School will Evaluate the Progress of this Goal:

Interim math data will be reviewed at collaboration and Academic Conferences a minimum of 4 times per year.

K-2

DJUSD grade level assessments for baseline, trimester 1, trimester 2, and end of year.

3-6th

Baseline: Envision Placement Test

Trimester 1, 2 and End of Year: SBAC Interim Assessment Blocks as outlined below. Operations & Algebraic Thinking (OA); Numbers & Operations (NF); Numbers & Operations in Base Ten (NBT); Expressions & Equations (EE); Number System (NS); and Ratios & Proportions (RP)

3rd: Envision, OA, NF

4th: OA, NBT, NF

5th: NBT, OA, NF

6th: EE, NS, RP

Planned Improvements in Student Performance

School Goal #4

The School Site Council has analyzed the academic performance of all student groups and has considered the effectiveness of key elements of the instructional program for students failing to meet student performance targets. As a result, it has adopted the following school goals, related actions, and expenditures to raise the academic performance of students not yet meeting state standards:

JECT: Close the Achievement Gap
GOAL:
tudents will benefit from high quality 21st Century instruction and engaging curriculum guided by staff collaboration focused on closing the achievement gap. (Pupil comes)
OOL GOAL #4:
ease achievement in both Math and ELA for the following student subgroups: Socioeconomically disadvantaged (SED), Hispanic/Latino, EL and Students with Disabilities a sured by state wide assessments.
a Used to Form this Goal:
ewide assessment SBAC data in ELA and Mathmatics using the 5x5 grid and Dashboard from the last two years. All student data was used in comparison with any subgrou that was one to two performance levels below. For MME, the subgroups in our achievement gap are Socioeconomically Disadvantaged (SED), Hispanic/Latino, English ners, and Students with Disabilities.
ings from the Analysis of this Data:
Attachment SBAC Achievement Gap Data
r the School will Evaluate the Progress of this Goal:
f will use interim assessments, Response to Intervention instructional block progress monitoring, during academic conferencing and collaboration. Bridge attendance, icipation and homework completion will also be monitored.

Planned Improvements in Student Performance

School Goal #5

The School Site Council has analyzed the academic performance of all student groups and has considered the effectiveness of key elements of the instructional program for students failing to meet student performance targets. As a result, it has adopted the following school goals, related actions, and expenditures to raise the academic performance of students not yet meeting state standards:

SUBJECT: Inclusive Environment	
LEA GOAL:	
All students will have equal opportunity to learn in a culturally responsive and inclusive environment that is physically and emotionally safe and informed by the relationshi with parents and community partners. (Engagement)	ps
SCHOOL GOAL #5:	
One hundred percent of parents and students will report a positive climate at MME. This includes feeling safe, comfortable and able to communicate with all school staff.	
Data Used to Form this Goal:	
Youth Truth survey results, attendance data, suspension data and counseling services data. We also reviewed PBIS behavior referral forms and teacher data on behavior supports.	

Findings from the Analysis of this Data:

School wide review of PBIS referrals shows a disporportionality in the number of behavior incidents in the English Only program. Approximately 80% of referrals come from these classrooms. For this reason, we would like to target more intervention for behavior support toward the English Only program in the upcoming year, delivered via the Student Success and Para III position (see below).

In 2017-2018 1.3 Counselor FTE was employed to deliver a combination of direct and indirect counseling services. These services included: school wide social emotional learning guidance units grades TK-4, small group counseling, individual and family counseling as well as crisis response counseling.

Attendance data shows 85 students who reached Level 2 truancy. This is down from 96 students at this time last year. In addition, this school year, we engaged in 80 family/parent conferences as compared to 40 the previous year. 20 students are chronically truant with between 10% and 20% days missed. This is significantly reduced from 55 students in 2016-2017. We believe the added FTE for the student success position and the ability to increase conferences has significantly contributed to this data.

From August 2017 to May 2018 there were a total of 27 incidents of in and out of school suspension, generated by 19 students. This is a decrease from the previous year where 34 total incidents were generated by 20 students. There were also 7 instances of alternative to suspension (primarily restorative practices) for violations that could have resulted in suspension. In the previous year there were 18 incidents that could have resulted in suspension. This is a significant decrease in the number of incidents from last year that could have resulted in suspension.

Youth Truth Survey Results indicate that in general MME students report the highest ratings on Student Engagement and Personal Relationships. The lowest relative areas were Classroom Culture and Relevance.

According to a staff survey, 17 of 25 respondents would like increased counseling and behavior intervention in order to improve school wide climate and allow for improved learning and instruction. To this end, and based on the data above, the school is proposing to maintain counseling and student success positions and to add paraeducator behavior support.

How the School will Evaluate the Progress of this Goal:

Data will be reviewed at staff meetings, leadership team meetings, PBIS meetings, School Site council meetings and ELAC meetings.

School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

Name of Members	Principal	Classroom Teacher	Other School Staff	Parent or Community Member	Secondary Students
Jen McNeil	Х				
Kelly Heung				х	
Michelle Secrest				х	
Corina Galacia				х	
Lupita Hernandez				х	
Merissa Leamy				х	
Patricia Lara			х		
Pam Disney		х			
Janell Campbell		х			
Ramona Torres		х			
Alternates:					
Lourdes Sanchez				х	
Geraldine Pelayo			Х		
Elizabeth Castro		х			
Numbers of members of each category:	1	3	1	5	

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

Recommendations and Assurances

The school site council (SSC) recommends this school plan and Proposed Expenditure(s)s to the district governing board for approval and assures the board of the following:

1. The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

. . .

- 2. The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the Single Plan for Student Achievement (SPSA) requiring board approval.
- 3. The SSC sought and considered all recommendations from the following groups or committees before adopting this plan (Check those that apply):

	State Compensatory Education Advisory Committee	
		Signature
x	English Learner Advisory Committee	
		Signature
	Special Education Advisory Committee	
		Signature
	Gifted and Talented Education Program Advisory Committee	
		Signature
	District/School Liaison Team for schools in Program Improvement	
		Signature
	Compensatory Education Advisory Committee	
		Signature
	Departmental Advisory Committee (secondary)	
		Signature
	Other committees established by the school or district (list):	
		Signature

- 4. The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.
- 5. This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

6. This SPSA was adopted by the SSC at a public meeting on 5/30/18.
